ABOUT ANTONIE

From a young age, Antonie enjoyed a wide range of sports such as swimming and handball. She discovered cycling at the age of 12, and in her very first season, she won the National Championship in the U13 category. Since then, cycling has become her true passion.

IN HER OWN WORDS:

“I still remember the day I decided to start cycling. At first, I was drawn to the idea of training with friends, but soon I discovered the real world of sports. I began to enjoy creating tactics and trying new strategies during races. In the early years, I mostly raced alone, but in recent seasons I’ve discovered team racing — it’s more fun, as it opens up new tactical possibilities and turns it into a real battle of minds.”

POINTS OF INTEREST

During the winter months, Antonie fully dedicates herself to cyclocross. She likes to joke, “I always enjoy warming up a little during the winter season.”

As part of her off-season training, she also takes part in her local Winter Running Cup.
